# Getting to know Vita Denture teeth in 3 easy steps

(without the need for a blind date)

## All Vita Denture teeth have these characteristics in common:

**Quality:** The special Vita MRP (microfiller reinforced polyacrylic), ensures homogeneity throughout the tooth even when ground to a thin shell and present excellent bonding to the denture base - hot or cold cured.

**Ease of Set up:** Designed for fast and easy set up.

**Nature like:** Light reflecting and characterised surface, designed with the patient's comfort in mind - optimum chewing function and plaque resistant.

**Vita shade, Vita Made:** 99.9% of dentists use a Vita shade guide. Only Vita teeth guarantee an exact reproduction of the shade prescribed.

## Ideal for technicians wishing to explore Vita Teeth and Panaplus Denture System

*I love Physiodens because there is no step between canines and molars and because of this they look very natural. I also like the fact that I can trim them down to 1mm with no loss of shade and no loss of bond. They are the best!"*

Jamie WRIGHT United Smiles, Wimpole Street, London

## Step 1:

# Choose the perfect tooth to meet your customer request from the Vita range:

**Physiodens:** A handmade multi-layered tooth, Physiodens are a unique masterpiece of craftsmanship in design and build. Perfect for any situation, particularly implants.

**RRP £20.30 +vat for anterior moulds and £18.30 +vat for posterior moulds**

**Vitapan Plus:** The new addition to the family, this vibrant modern tooth is perfectly suited for the private market. Pronounced neck areas, impressive aesthetics due to enamel progression and colouration with in-depth effect, Vitapan Plus are available in a compact assortment of 15 upper anterior and 6 lower anterior moulds. Mix and match with Vita Lingoform posterior moulds or Vitapan posterior moulds.

**RRP: Vitapan Plus £16.80 +vat Lingoform post moulds £15.80 +vat, Vitapan post moulds: £15.00 +vat**

**MFT (Multi Functional Teeth):** An all-purpose tooth for independent usage with an excellent quality/price ratio. MFT offers a unique EasyCentric© feature to help you set up quickly and easily. A winner all round!

**RRP: £8.49 +vat for anterior and posterior moulds.**

## Step 2: The consignment

We provide you with a small consignment of 12 moulds in the tooth range of your choice over a 3 month period. As long as you are ordering a minimum of 12 sets per month (i.e 36 sets in 3 months), you will keep the original consignment of 12 sets free of charge. If you haven't ordered a minimum of 36 sets at the end of the 3 month period, Panadent reserves the right to take back the original consignment. Any unsellable or missing sets from the original consignment will be charged at RRP.

## Step 3: Buy and save £££...

After the initial 3 month period, and if you increase your monthly order to a minimum of 20 sets per month, you will get 10 % discount off RRP, if you order 30 sets per month or more, you will get 20% off RRP. The discount amount you are entitled to will be credited to your account and will come off your next order.

**In addition you can take advantage of the Vita tooth club offers on the back page.**

**Vita Lingoform®**

**MFT**

**Vitapan® Plus**

**Vita Physiodens®**
